

What is FindIt@CSU?

FindIt (formerly called SFX) is your pathfinder to a number of services at the CSU Libraries. The FindIt menu allows you to:

- Link to the full-text of a journal article
- Check whether CSU owns the journal or book
- Order the book from Prospector
- Order the article or book from Interlibrary Loan
- Search the Web for the title of a book or article

Two Ways to Use SFX:

1. Databases <<http://lib.colostate.edu/databases/>>

- a) Search any database marked with a FindIt symbol .
- b) After searching, click on the FindIt button. The location and appearance of the button will vary. A window will appear that will list all the options available for that article.
- c) Choose the option (such as full text) that interests you.

2. Full Text Electronic Journals <<http://lib.colostate.edu/journals/>>

- a) Click on the first letter of your favorite journal title or type the journal title into the Citation Linker.
 - b) Click on the FindIt button to see what options are available.
 - c) A window will appear that will list all the options available for that article. Choose the option (such as full text) that interests you.
- Any article that is not available online can be ordered vis Interlibrary Loan.
